SUSTAINABLE FUTURE
FOR INDIA'S F&B
INDUSTRY**

NORTH EAST CHAPTER

Unlocking North East India's Food
Economy: From Farm Abundance
to Global Value Chains

Organised By

TPC Trade Promotion
Council of India

Supported By

NERAMAC

About the Summit

The India Food Manufacturing Summit - North East Chapter is a flagship industry-government dialogue platform being organised by the Trade Promotion Council of India (TPCI) in Guwahati, Assam. This is the 6th edition in this series and the very first in the Northeast region..

The North Eastern Region of India - comprising Assam, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, and Tripura - is one of the most bio diverse agro-ecological zones in Asia. Yet, despite its abundant resources, most of the region's agricultural output is marketed raw. This summit aims to change that by unlocking the region's immense potential to emerge as a hub for value-added food manufacturing, packaging, innovation and export-oriented food processing industries.

150+

Senior Decision-Makers

5

High-Value Sessions

8 STATES

NE India Represented

ASEAN

Export Corridor Focus

Why North East India, Why Now?

Agro-Biodiversity Powerhouse

NER is a global biodiversity hotspot producing pineapple, turmeric, ginger, bamboo, tea, and GI-tagged specialities.

Organic Agriculture Potential

Low-chemical farming traditions create ready export-grade organic supply chains for premium markets.

Opportunity for Technology Suppliers

Highlighting that the Northeast's processing infrastructure is still nascent, there's a first-mover advantage for suppliers of food processing machinery, IQF & retort systems, cold chain equipment, packaging technology, and turnkey plant solutions providers - positioning the region as one of India's largest untapped markets for food technology deployment.

Gateway to ASEAN Markets

Strategically located for export-oriented food manufacturing targeting Southeast Asia and beyond.

Strong Policy Tailwinds

Government schemes for food processing infrastructure, MSME development, and export promotion are accelerating growth.

Key Focus Sectors

Agro Value Addition

Food Processing Infrastructure

Export Development

Technology & Innovation

Sustainability & Circular Economy
